How to Use the Application

1. Download the app from Google Play

2. Create a new account

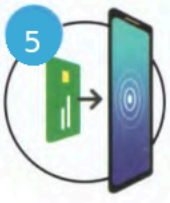

3. Choose Card Recharge from the options

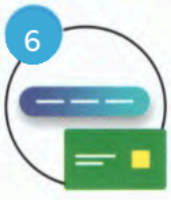

4. Insert the card into the meter to read the data before charging

5. Tap the card with your device (from the back)

6. Go to payment and enter your card details

7. After payment, tap the card again with your device. A confirmation message will show the recharge amount.

8. Insert the card into the meter to transfer the recharge
